Sub: Proposal for World Peace and reducing World Terrorism through Sports under aegis of INOC.

May the Peace And Blessings of Allah (SWT) be upon you Excellency, your family and friends-Ameen

The "INTERNATIONAL NON-OLYMPIC COMMITTEE-INOC is the International forum for Non-Olympic Sports in the World. I myself (Mohammed. Seraj Ansari) is the Founder & Secretary-General-INOC, the first Muslim in the world has taken this big initiative in the field of world Sports. (www.non-olympic.org).

The INOC has been formed with sole-aims for developments, upliftments, recognition and popularizing the Non-Olympic and Country Traditional Games in all over the World as Olympic Games, which has been struggling to get its popularity amongst the peoples of the World and its due recognition from the "International Olympic Committee-IOC".

The World community has recognized that the Sports has great potential to give world-wide publicity, exposure, recognition to the person involved or to the Nation and by this efforts, small or big country can increase their Commerce, Tourism and Cultural (etc.) collaboration with other countries of the world. The Economic, Social and Cultural reformation is very important tool, which can easily be grabbed through sports.

Most of the Muslims countries are affected with terrorism, and it is happening around the world, the developed countries are facing much problem with these disastrous things, which are increasing year by year, and whole of the world are worried about its future and peace and free world.

As a whole, USA, U.K, UNO & Israel are really doing generous of work for global reformation and its development towards World Peace etc., entire world is looking on you and further your positive as well as constructive solution towards terrorism of this world and but your Excellency, your idea and action is good against terrorism, but very expensive, and it is advisable that and it is a need of time to adopt some other way to stop terrorism from this world. We are deeply concerned with these injustice things are happening and killing innocents, "God" is great, but "God" has not given right to any body to kill human being for their any demands etc., as a whole, we are totally against with this action and condemning this type of activities.

Solution to stop or decrease terrorism from the world:

The whole world is deeply concerned with Terrorism, and they are using best of their efforts to stop Terrorism, but it is continuously running even increasing day by day. Your Excellency, I myself has got an idea that and found its solution too, please follow me for a moment, it is fact that a poor persons and youngsters are

basically involved with terrorism, and using them by a masterminds of terrorist organization, they are feeding them and exploiting their feeling etc., and converting them to do for their particular community, and we all are fighting for you and our causes.

Your Excellency, we have to adopt the very same system, which terrorist's masterminds are using for the same, your Excellency you and your partners have to select those countries where terrorists are operating their operation, and we have to make a draft a proposal for that countries which is as under;

The Brief Draft of Proposal:

8. The Terrorist's masterminds have already been established amongst the Muslim that **USA, U.K. UNO and Israel** etc. are against the Muslim as well as Islam too. And it is also confirmed that the masterminds have already been developed faith with some portion of Muslims, which are financially poor and un-educated and youngsters are emotionally exploiting through many ways, **money, position** etc. by these masterminds.
9. Your Excellency, you and your allies partners are using missiles and other techniques to prevent the whole world with a very expensive budgets, but this is not only the way to stop terrorism from whole of the world, we have to adopt the system which masterminds have already adopted. **The idea: 1-All Muslim countries and most Muslim populated countries will be identified and make a list, 2-One or Two NGO's first International Non-Olympic Committee-INOC and other one should be from education, food programme, medical etc. the INOC will operate their sports activities amongst youngsters because the Non-Olympic sports are played in rural and urban area and the most involved persons towards terrorist activities basically they are played with these games only, the INOC will develop those games which are not covered by the National Government, Olympic Movement. All the activities will be run by the INOC and fully sponsored by the USA, U.K. UNO and Israel etc. and your name will be highlighted amongst Muslim community through the sports tournaments and coaching, seminars etc. and through other sports activities in the all listed countries in all over the world, sports is the only way, you can spend small amount and take huge publicity towards social contribution amongst the society, the entire Muslim community will take this efforts very positively and the efforts/message will be recognized that USA, U.K. UNO and Israel etc are well wisher of the Muslim Community, basically youngsters will come closer with USA, U.K. UNO and Israel etc and other person too, which will make some differences with masterminds, this effects will develop faith and positive approach amongst entire Muslim community about you and your allies that you are protecting them and try build their future, and further inviting them to come in the main stream of the life.**
10. The INOC will operate sports activities from village to city areas and invite all poor and youngsters to play game for your physical fitness, and bright future sponsored by **USA, U.K, UNO & Israel**.
11. The INOC will develop promotional materials, literature etc. that will high the name of **USA, U.K, UNO & Israel** and your contribution amongst Muslim Community.
12. The INOC will also conduct seminars in every part of the listed countries, and inviting these community to come together and work for the sports and develop brotherhood with other community of the world like; the other sports are doing for the globe.

13. At the same time, we have to use much publicity amongst Muslims about these efforts and especially about USA, U.K, UNO & Israel, which peoples have negatives images. They will be confirmed that USA, U.K, UNO & Israel are not against Muslim and it's Islam.
14. No other NGOs will give these kind of effects, which INOC can give, because, the Non-Olympic Games are much closer with poor and youngsters of this community. And only sports have potential to develop Social Harmony, Normalization, Integration as well as World Peace.

The INOC is going to be the world second largest sports organization after IOC, and the INOC has got its leadership by a Muslim. We are (personality) adamant to promote sports in all Muslim and most Muslim populated countries as well as other part of the world. As world is using sports as tool for its complete development and exposures of each country.

I myself have got innovative ideas and am ready to assist the USA, U.K, UNO & Israel and its listed countries with great proposal for promotion of sports in Muslim countries for above purposes.

The on behalf of the International Non-Olympic Committee-INOC we request your goodself to give legal Patronage ship to the INOC-Movement from you, and we assure your Excellency, this effect will give a great message to the world community as well world of sports that USA, U.K, UNO & Israel have taken a global challenges for the World Peace, Normalization, Integration and Social Unity etc.

We, therefore, would like to request your Excellency to accept this proposal and become a part of great success of this region under your able Leadership.

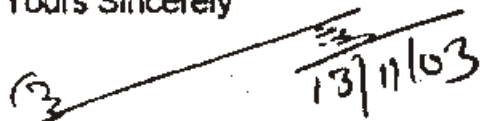

We would be thanked full to you if your Excellency can fix up a **personal meeting** with us, so that we can discuss in broad level towards other issues.

We are in confidant that this effort would definitely be benefited to the youths & exploited sports personalities, organizations etc. in the region.

We are eagerly waiting your positive views on the subject mentioned above. And your any suggestion will always be welcomed and oblige.

Thanking you

Yours Sincerely

13/11/03

(MOHD. SERAJ ANSARI)
Founder & Secretary-General-INOC
